

I apologize, I hit send too quickly on my previous email.

We have extremely large snow hills on our playground. The snow is very compacted, icy and quite slippery. Students have been informed today that unfortunately, we cannot play on the snow hills as it is too dangerous at this time.

As part of the mandate from the Ministry of Education, I am reminding all parents and students that at the end of the day you are not to congregate at the school in groups. We are trying our best to mitigate the spread of Covid-19 and we need everyone's help. Please go home after school and do not stay on the playground to play on the snow hills at this time as they are too large and dangerous.

We truly appreciate your help with this.

Mrs. Coletto
